Part I.		
Rejection(s) discussed: NONE		
Claims discussed: 11 and 23		
Prior art documents discussed:		
SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED: Examiner telephoned Applicant to discuss the potential allowance of claims. The only remaining issue was that there appeared to be not enough support for the term "metabolite" in claims 11 and 23. Mr. Repper indicated that Figure 1 and its discription (under Brief description of the drawings) provides support for the term metabolite for claim 11. The discription discloses that metabolits of taurloidine include tauraltam, taurinamide and taurine. Mr. Repper agreed to deleting the term metabolite from claim 23. The amendment is done by way of an Examiner's Amendment (see attached).		
e examiner will provide a writte ecord of the substance of the	en summary of interview, since	the substance
